

Broad Spectrum Antifungal Concentrate

BENEFITS: PRO-SAN® Agro

- ✓ **Fast acting**
- ✓ **Ease of use Concentrated: 1 fl.oz./ 4 gals of water**
- ✓ **Free of toxic residue**
- ✓ **Completely Biodegradable**
- ✓ **Fewer Repeat Spray Applications**
- ✓ **Broad Spectrum Antifungal Activity**
- ✓ **FDA & USDA approved food grade/GRAS ingredients**

Grain Storage

Wheat fields

Corn

Soybean

Multifunctional Uses:

**Preserve grain and cereal storage,
Prevent fungus on multiple surfaces,
Grain, cereal, and produce field crops,
Remove musty odors,
Prevent mycotoxin build up,**

PRO-SAN® Agro food grade antifungal concentrate offers safety and efficacy against fungal diseases. Made in the USA, this cost effective concentrate, only 1 fl oz in 4 gallons water, is a safer alternative for spraying on many different type crops, than many of the antifungal products currently found in the marketplace.

Available in 55 gallon drums.

Suggested Antifungal Treatment to prevent Crop Loss

<u>Crops</u>	<u>Disease</u>	<u>Fungal Pathogen</u>	<u>Loss (%)</u>
Fruits, flowers	Gray mold	Botrytis cinerea	30%- 40%
Fruits and vegetable	Anthravnose spots and blights	Colletotrichum	spp. >80%
Tomato	Tomato leaf mold	Cladosporium fulvum	10–25%
Potato	Dry rot	1.Fusarium 2. Rhizoctonia solani	spp. 1.5%-60%
Potato	Late blight	Phytophthora infestans	2.30%
Potato	Stem canker and black scurf	Rhizoctonia solani	3.30%
Cereals	Fusarium head blight;	Fusarium graminearum	10%-70%
Rice	Rice blast	Magnaporthe oryzae	10% -35%
Wheat	Wheat Stem Rust Septoria tritici blotch (<i>Mycosphaerella graminicola</i>)	Puccinia graminis Zymoseptoria tritici	spp. 1.30–50%
Wheat and barley	Mildews	Blumeria graminis	13 -18%
Soybean	Rust	Phakopsora pachyrhizi	70%
Sugarcane	Sugarcane smut	Sporisorium scitamineum	62%
Corn	Corn smut	Ustilago maydis	20%
	Anthravnose	Colletotrichum species
